PARALYMPIC GAMES PRESENTATION PACK
PARIS 2024
READY FOR A HISTORIC FIRST
MAY 2023
MESSAGE FROM THE PRESIDENT

We are ready to stage the first Paralympic Summer Games to be held in France.

Our ambition is to organise a spectacular celebration that will inspire the world and break down barriers for the benefit of people with a disability.

It all starts with an important piece of symbolism: for the first time in Games history, Paris 2024 has adopted the same emblem for the Olympic and Paralympic Games. This single emblem demonstrates our desire to treat both parts of our project with the same passion, ambition and expectation.

In practical terms, our ambition is reflected in the competition venues, with the same iconic sites for both Olympic and Paralympic sports: the Eiffel Tower for Blind Football, the Grand Palais for Wheelchair Fencing and Para Taekwondo, Les Invalides for Para Archery, and the Château de Versailles for Para Equestrian.

The Paris 2024 Paralympic Games will shine a spotlight on Paralympians’ performances like never before. All our Olympic and Paralympic competition and event venues will be accessible to disabled people.

Finally, our ambition is demonstrated by the showcasing of Para sports and the inclusion of all types of disability in our legacy and engagement programmes, in particular the Terre de Jeux 2024 label, which has already been awarded to more than 4,000 local and regional authorities and sports stakeholders, the Paris 2024 Club, which boasts over 4 million members, and the Paris 2024 endowment fund, which supports projects linked to the social impact of sport. Every year, we take Olympic and Paralympic Week into schools, with 95% of projects in the 2023 edition designed to raise children’s awareness of disability and Para sports.

By engaging the entire sports movement and all Paris 2024 public and private stakeholders, the Games will help to promote universal accessibility as well as the inclusion, workplace integration and sports participation of people with a disability.

Everything is in place to make this ambition a reality, together with our belief that sport can change lives.

TONY ESTANGUET
PRESIDENT OF PARIS 2024
TABLE OF CONTENTS

01
GAMES WIDE OPEN TO THE EMOTIONS OF SPORT  5
1.1 A single emblem symbolising Paris 2024’s ambition  8
1.2 A stage like no other  9
Taking sport out of its traditional spaces  9
World-renowned competition venues  10
Creating an optimal experience at the Paralympic Games  11
Pre-games training centres: ready to host paralympic athletes  11
1.3 An open-hearted, popular celebration  12
High hopes for the Opening Ceremony  12
1.4 A paralympic day to shine a light on the Para athletes and Para sports  14
1.5 Unprecedented media coverage in the host country  15
1.6 With Paris 2024: from meetings  16

02
GAMES WIDE OPEN, AND ACCESSIBLE TO ALL  17
2.1 Games that are accessible to everyone  18
A games experience all spectators can enjoy  18
Opening up the economic opportunities of the Games to the disability sector  19
2.2 Celebrating the Paralympic Games throughout France  21
Clubs 2024  22
Club France  23
The map of the Games  24
2.3 Paralympic Games ticket sales accessible to all  25
2.4 Paris 2024: setting an example  28
2.5 The partners, vital to the success of the Games  29

03
MINDS WIDE OPEN, TO MOVE SOCIETY FORWARD  24

4.3 Key figures  37
4.4 Paralympic venues master plan  39
4.5 The 23 Paralympic disciplines  41
A SHARED JOURNEY: THE PARIS 2024 STAKEHOLDERS

The Organising Committee thanks all the stakeholders involved in the Paris 2024 Paralympic Games:

The International Paralympic Committee, the Comité Paralympique et Sportif Français (French Paralympic and Sports Committee) and the signatories of the Host City Contract (the Comité National Olympique et Sportif Français (French National Olympic and Sports Committee), the City of Paris and the International Olympic Committee).

All the public stakeholders (the State, the Île-de-France region, the Greater Paris metropolitan authorities, the Seine-Saint-Denis département, as well as all host authorities) that are involved, with the help of our partners in construction SOLIDEO, and our broadcasting partners, in organising the Paris 2024 Games in a manner that lives up to all our ambitions.

And with them, all the stakeholders of the sports movement, associations in the health and disability sector, players in the protected and adapted sector and employment, the social partners, as well as many representatives of civil society who, each at their own level, act on a daily basis to improve the place of people with disabilities in society.

GAMES DESIGNED WITH THE ATHLETES

Chaired by Martin Fourcade, the Athletes’ Commission has been tasked with creating the ultimate athlete experience for the Olympic and Paralympic Games. There are 19 people on the commission, including five Paralympic athletes: Perle Bouge (Para Rowing), Marie Bochet (Para Alpine Skiing), Théo Curin (Para Swimming), Michaël Jérémiasz (Wheelchair Tennis) and Lucas Créange (Para Table Tennis).

The Commission plays a part in designing the Olympic and Paralympic Village, providing delegations with top-class services and coming up with new concepts for celebrations open to all. Not only do these athletes share their experience and spread the values of sport, they also help encourage the general public to get involved throughout France and change the way people think about disability.

Martin Fourcade
French biathlete, five-times Olympic champion, chair of the Paris 2024 Athletes’ Commission

“Organising France’s first-ever summer Paralympic Games provides a unique opportunity to shine a spotlight on the performances of these exceptional athletes. We are working with Paris 2024 teams to ensure the best possible conditions for the athletes during the Games. We know that sport has the power to change people’s perceptions, which is why encouraging more people with disabilities to take part in sport is a major priority for us.”
GAMES WIDE OPEN TO THE EMOTIONS OF SPORT
If you like sport, the Paris 2024 Paralympic Games will take your breath away! This event has shone a spotlight on performances and emotions carried by exceptional athletes in pursuit of their dreams.

81% of French people support the holding of the Paralympic Games in France in 2024 (according to a Toluna Harris Interactive survey from April 2023).

The same SPECTACULAR, EMOTIONALLY CHARGED COMPETITION VENUES as for the Olympic events.

A SEAMLESS GAMES EXPERIENCE for people living with disabilities, ensuring they can fully participate by organising mass participation events and enhancing venues’ accessibility.

A NEW, MORE INTERACTIVE AND ACCESSIBLE CELEBRATION OF SPORT in urban areas, bringing Paralympic athletes and spectators closer together.
PARALYMPIC GAMES
PARIS 2024
In dates and figures

11 DAYS OF COMpetition
NO COMPETITIONS ON THE DAY OF THE OPENING CEREMONY – 28 AUGUST – to ensure all Para athletes can make the most of the unique experience

11 PARA SPORTS, AND MEDALS BEING WON, FROM THE VERY FIRST DAY OF THE COMPETITION (Thursday 29 August)

WONDERFUL WEEKENDS: no fewer than 16 Para sports on offer over the first weekend (31 August to 1 September)

A BALANCED PROGRAMME throughout the Games, WITH ONE TEAM SPORT (WHEELCHAIR RUGBY) CONCLUDING ON DAY 5 OF THE COMPETITION (Monday 2 September)

NEAR GENDER PARITY ACROSS THE WHOLE PROGRAMME

This competition schedule is the result of an extensive collaboration involving sporting bodies alongside Paris 2024 and the IPC – in particular, international sports federations, Olympic Broadcasting Services (in charge of imagery for the Games), and public authorities, notably including DIJOP and Île-de-France Mobilités.
A SINGLE EMBLEM AND A SINGLE SLOGAN, REPRESENTATIVE OF OPENNESS AND INCLUSION

AN EMBLEM SHARED BY THE OLYMPIC AND PARALYMPIC GAMES

For the first time in history, the Olympic and Paralympic Games will share the same emblem. This important decision sends out a powerful message: in 2024, Olympic and Paralympic athletes alike will burn with the same passion, the same determination, and arouse equally powerful emotions in those who witness their performances.

The logo of the Paralympic Games is made up of three “agitos” – red, blue and green. Each agito (which means “I move” in Latin) symbolises movement and underlines the role of the International Paralympic Committee in bringing together athletes from around the world. These three colours – and the white background – were chosen because they are the most represented on the flags of the world nations.

GAMES WIDE OPEN: A UNIQUE SLOGAN

Because the desire for openness pervades every action undertaken, and every commitment made, by Paris 2024, both for the Olympics and the Paralympics.

A MEETING BETWEEN THREE SIMPLE, YET POWERFUL SYMBOLS

Three symbols which, together, make up a face, expressing Paris 2024’s desire to have Games which are open and welcoming to all people.

THE GOLD MEDAL
Symbol of excelling oneself

THE FLAME
Symbol of transmission

MARIANNE
In tribute to French spirit, boldness and creativity
A STAGE LIKE NO OTHER

TAKING SPORT OUT OF ITS TRADITIONAL SPACES

Some of the most beautiful sites and landmarks that Paris and France have to offer will provide a magnificent showcase for the performances of extraordinary athletes, bringing sport and the national heritage together in unexpected ways.

THE GRAND PALAIS for Wheelchair Fencing and Para Taekwondo
THE CHAMP-DE-MARS ARENA for Para Judo and Wheelchair Rugby
THE INVALIDES for Para Archery
THE EIFFEL TOWER STADIUM for Blind Football
THE CHÂTEAU DE VERSAILLES for the Para Equestrian (dressage) competition
PARA CYCLING CIRCUIT will start and end at Clichy-sous-Bois

Yvan Wouandji
Forward for the French Blind Football team

"The Paris Games will finally give Blind Football the visibility it deserves. There’s no better way of promoting our sport than playing at an incredible venue at the foot of the Eiffel Tower – a spectacular backdrop that should draw a large crowd. And hopefully it’ll give Blind football a boost in terms of players and infrastructure, while also contributing to the inclusion in society of those who are visually impaired"."
Paris 2024 will also offer the athletes the best possible conditions for competition at world-renowned sports venues that are used to hosting major events on a regular basis.

These iconic infrastructures will shine a spotlight on the Paralympians’ performances, rendering them all the more inspiring.

**THE STADE DE FRANCE** for Para Athletics

**ROLAND-GARROS** for Wheelchair Tennis and Sitting Volleyball

**THE BERCY ARENA** for Wheelchair Basketball

**THE PARIS SUD ARENA,** a keystone paralympic facility, which will play host to Boccia (in Hall 1), Para table Tennis (in Hall 4) and Goalball (in Hall 6)
CREATING AN OPTIMAL EXPERIENCE AT THE PARALYMPIC GAMES

19 sports within a 10km radius of the Paralympic Village.

Less than 2KM between the Paralympic Village and the Stade de France.

90% of Paralympic athletes will be provided with accommodation less than 30 minutes from their competition venue.

All venues will be accessible via public transport in the form of buses, metro and RER lines, trams and light vehicles such as vans and minibuses, giving accessible options to people with disabilities.

PRE-GAMES TRAINING CENTRES: READY TO HOST PARALYMPIC ATHLETES

In the three years leading up to Games, a network of 1030 pre-Games training facilities throughout France will welcome Paralympians from all over the world preparing for Paris 2024.

These base camps, spread across more than 500 “Terre de Jeux 2024” local authorities will play a key role in athletes’ training and preparation, enabling them to train in facilities with optimal conditions. All Paralympic disciplines have one or more Pre-Games training centres offering accessible sports equipment that meets the highest quality standards. Specific services will also be offered, such as the provision of competition seats or transport solutions for people with reduced mobility.

The centres were selected jointly by Paris 2024, together with the French NOC, NPC and a number of Olympic and Paralympic sports federations. The aim was to guarantee the highest quality of equipment and facilities for athletes.

The list of Pre-Games Training Centres is available on: https://prepare.paris2024.org
The Opening Ceremony of the Paris 2024 Paralympic Games will be the first to be held outside a stadium, right in the heart of the French capital. The athletes’ parade will begin at the foot of the Champs-Élysées, the most beautiful avenue in the world, and finish at Place de la Concorde, the largest public square in Paris. Paris 2024 has chosen an innovative concept that will impress the world, as well as the 4,400 athletes and 184 delegations who will take part in the parade.

This three-hour ceremony will be truly spectacular, living up to our ambition to organise high-impact Games that are transformational for the whole of society. To achieve this, we will develop a creative, innovative concept – our trademark! – with the help of the brilliant Thomas Jolly, artistic director of the four Olympic and Paralympic ceremonies.

TONY ESTANGUET,
PRESIDENT OF PARIS 2024

65 000

PEOPLE will be able to attend this ceremony, including 30,000 with free tickets at the foot of the Champs-Élysées, which is an exciting first!
With the first Opening Ceremony in the history of the Paralympics to be held outside a stadium, Paris 2024 is breaking new ground, and adopting a concept which will make an indelible impression on the memories of those who witness it. In the heart of Paris, against an inspirational backdrop so often admired and photographed, the 4,400 athletes from up to 184 delegations, from all over the globe, will parade before the eyes of the entire world.

The iconic nature of the site and its original configuration open the door to numerous creative possibilities and reflect our motto “Games Wide Open”. The four stages could be used simultaneously, or alternately, to host the various artistic contributions and rites of protocol which punctuate the ceremony.

These images will leave an impression on the whole world, and help the Paralympic athletes to pass into legend.
On Saturday 8 October 2022, tens of thousands of people took part in the first Paralympic Day, organised jointly by the Organising Committee of the Paris 2024 Olympic and Paralympic Games, the Ministry of Sport and the Olympic and Paralympic Games, the Comité Paralympique et Sportif Français (CPSF) and the City of Paris.

Against a symbolic backdrop in the very heart of the capital, visitors came in their thousands with friends and family members to enjoy a festive sporting atmosphere and watch top-level sports demonstrations (triple Paralympic champion Markus Rehm was in attendance) and meet more than 160 Paralympians (Sandrine Martinet, Arnaud Assoumani, Perle Bouge, Alexis Hanquinquant, Nelia Barbosa., etc.).

Sports federations organised activities and introductory sessions in around 15 Paralympic sports, including Wheelchair basketball, Boccia, Blind Football, Wheelchair Fencing, Para Athletics, Para Rowing, Para Badminton, Para Judo, Para table Tennis, Wheelchair Tennis, Para Triathlon and Sitting Volleyball. The participants also had the chance to discover other sports that are not on the official Games programme, such as Wheelchair BMX, Wheelchair Handball, Para Climbing and Showdown.

The next Paralympic Day will be held in October 8 2023, helping to further establish this new event as a key entry in the annual sporting calendar!
On 17 January 2022, Paris 2024 awarded France Télévisions exclusive broadcasting rights over the Paralympic Games, in France, for audiovisual and digital media.

France Télévisions has made firm commitments to shine a light on Paralympic athletes, and allow all television viewers to experience the event in full:

**300 HOURS OF LIVE BROADCASTING OF THE COMPETITION**
(three times more than during the Tokyo Paralympic Games)

**ALL COMPETITIVE SPORTS** broadcast, for the first time

**BROADCASTING ON BOTH THE GROUP’S MAIN CHANNELS: FRANCE 2 AND FRANCE 3**, with highlights shown every evening

**A CONSISTENT EDITORIAL POLICY**, with two new programmes being created, to promote the athletes and Para sports; and more broadly, to spotlight disabled people, helped by **TRAINING JOURNALISTS AND HAVING PARALYMPIC ATHLETES MAKE THEIR PRESENCE FELT ON THE SCREEN.**

**Training journalists and raising their awareness of Paralympic sports**

Sports journalists are experts in making their audience feel the emotions that sport arouses. Their own passion, and inside-out knowledge of the sports on which they are commentating are key to enable television viewers, readers and listeners to experience the vibes of the athletes’ performances as though they were there, in the stands. It is therefore absolutely crucial that they should have in-depth knowledge of the world of the Paralympics.

The first seminar for media professionals to provide them with in-depth understanding of the Paralympic Games was held on 31 March 2022, at INSEP, led by Paris 2024 and the CPSF. This followed a commitment made during the call for tenders.

More than 20 journalists and 11 directors of media groups took part in the session, including figures from Le Monde and Le Figaro, L’Equipe, TF1 and France Télévisions. The programme included a Q&A session with athletes and journalists who had covered previous Paralympic Games, and introductions to various sports led by professional athletes (Wheelchair basketball, Para judo and Para athletics).

Feedback on this session was very positive, and a second session was held as part of Paralympic Day 2022.
CLUB PARIS 2024: ORGANISING MEETINGS WITH OUTSTANDING ATHLETES

Not only is the Paris 2024 Club the first community ever created to **ENABLE AS MANY PEOPLE AS POSSIBLE TO EXPERIENCE THE HIGHLIGHTS OF THE GAMES AND PROMOTE PHYSICAL ACTIVITY**, it is also a unique platform that promotes Para sports. Members were given the chance to meet a number of Paralympians through sports challenges organised since summer 2020, testing their skills against Arnaud Assoumani and Marie-Amélie Le Fur on the track at Charléty stadium or the duo Pauline Parmentier and Charlotte Fairbank on the tennis courts at the Lagardère Paris Racing club.

To join the Paris 2024 Club and begin your Games adventure, go to [club.paris2024.org](http://club.paris2024.org).

**FACE TO FACE WITH THÉO CURIN AND JÉRÉMY STRAVIUS AT THE CERCLE DES NAGEURS DE MARSEILLE**

In June 2022, members of the Paris 2024 Club won the chance to swim against Théo Curin (Paralympic swimmer) and Jérémy Stravius (triple Olympic medallist) at the Cercle des Nageurs de Marseille, where they took part in an unprecedented 4x50m team relay with their hands tied together.

As well as taking on this wonderful sporting challenge, the Paris 2024 Club members were able to chat to these two great champions at one of France’s most iconic swimming venues.
GAMES WIDE OPEN, AND ACCESSIBLE TO ALL
Universal accessibility is integrated into all aspects of organising the Paris 2024 Games.

**ACCESS TO INFORMATION:** solutions to facilitate equal access to online information and ticket purchasing, including digital accessibility from its conception.

**ACCESS TO THE VENUES:** All venues will be accessible by public transport, and accessible transport options will be offered to people with disabilities (shuttles from the main Paris railway stations, fleet of accessible taxis, etc.). Meanwhile, Paris 2024 will provide pick-up and drop-off zones for vehicles carrying people with reduced mobility.

Volunteers trained in how to assist people with disabilities will be deployed in these special zones, as well as in and around railway stations, in order to ensure disabled passengers are seamlessly transported to the competition venues.

**VENUE ADAPTATION:** adapted venues to optimise the spectator experience (e.g. positioning wheelchair users appropriately to improve visibility, leaving enough space for people with disabilities and their helpers to be together, and providing audio description).

**VOLUNTEER PROGRAMME AND ACCESSIBILITY:** the volunteer programme will be open to people with disabilities for the Olympic Games and the Paralympic Games. A policy of accessibility and inclusion will be in place, with all volunteers trained in how to assist people with disabilities.

Stepping up the pace to make all events universally accessible

Paris 2024 is aiming to make the Paris 2024 Games the first event to hold ISO certification for universal accessibility, creating a new standard for all major sporting and cultural events. Paris 2024 obtained ISO 20121 certification for the inaugural Paralympic Day held on 8 October 2022 at the Place de la Bastille. Paris 2024 is continuing the work begun with the French Standardisation Association (AFNOR) and its stakeholders to ensure that inclusion and universal accessibility are integral to all aspects of the event and the overall management of the project, from the design phase to event delivery.
OPENING UP THE ECONOMIC OPPORTUNITIES OF THE GAMES TO THE DISABILITY SECTOR

The Olympic and Paralympic Games are a tremendous driver of opportunities that Paris 2024 and its stakeholders want to harness to promote the employment of people with disabilities and improve their inclusion in society.

THE PARIS 2024 SOCIAL CHARTER

Paris 2024 is committed to organising an economically and socially responsible event. This commitment is embodied in the first-ever social charter in Olympic Games history, which invites all French social partners to sign up to 16 key principles. The targets set include encouraging the integration of people with disabilities, for example by setting social responsibility criteria in tendering procedures.

ESS 2024, AN INNOVATIVE TOOL FOR AN INCLUSIVE ECONOMY

Set up by Paris 2024 and led by Les Canaux and the Yunus Centre, ESS 2024 is a tool that provides free references, information and advice and supports companies from the Social and Solidarity Economy, as well as professional integration bodies and the disability sector, in order to help them seize the economic opportunities created by the Games.

ESS 2024: www.ess2024.org

389 COMPANIES PROVIDING SERVICES TO PEOPLE WITH DISABILITIES IN AUGUST 2022
Paris 2024 has implemented a responsible procurement policy that includes the protected and adapted employment sector alongside leading organisations in the disability sector, such as UNEA, APF Entreprise, UNAPEI, the GESAT network and Handeco.

The inclusion of groups, workers and users living with disabilities is one of five priority issues targeted by this strategy.

Le Colibri will provide catering, APF Entreprise will collaborate with Paris 2024’s headquarters’ reception, Handiprint will produce business cards, Handiamo will provide consultancy services regarding Paris 2024’s approach to inclusion and Urbilog will provide consultancy services regarding digital accessibility.

**A Catalogue of Jobs for the Games**

Paris 2024 drew up a catalogue of the jobs that will be created in relation to the organisation of the Games, in order to:

- **Identify the Number and Type of Jobs** required to prepare and organise the Games.
- **Prepare**, in conjunction with public stakeholders, **Training Programmes for the Roles** required to organise the Games.
- **Prepare Jobseekers** for the employment and training opportunities identified.

This mapping, created five years before the Games, was updated in 2021.

**Emplois 2024**

In order to enable as many people as possible to apply for these jobs, a virtual agency called Emplois 2024 was launched in late 2021 at the initiative of the French public employment service, Pôle Emploi.

This online platform informs jobseekers about the roles and training courses available to them. It will also be shared with other international sports events held in France for continued use after the Games.

**150,000 jobs will be involved in organising the Games between 2019 and 2024**

- **Organisation**
  - 78,000 jobs
- **Tourism**
  - 60,000 jobs
- **Construction**
  - 12,000 jobs
Paris 2024’s ambition is to carry the festive spirit of celebration to all regions of France during the Paralympic Games. The Clubs 2024, the programme of activities in towns and cities, and the Map of the Games, launched during the Olympic Games, will carry on throughout the Paralympic period. Paris 2024 will also offer special complementary celebrations, specifically in cooperation with the Ministry of National Education, which will allow us to engage children, through the mini-Clubs 2024, as they go back to school after the holidays.
With the ambition of turning the whole of France into a festival during the Games, Paris 2024, alongside the host communities and the “Terre de Jeux 2024” certified regions, has created a programme of celebration venues throughout the country. **With their sporting, cultural and festive programmes, the Clubs 2024 will enable France to March to the Beat of the Games throughout the summer**, right up until the Closing Ceremony of the Paralympic Games.

The Clubs 2024 are aligned with Paris 2024’s commitments in terms of environmental and social responsibility, universal accessibility and legacy. As communities set up their Clubs 2024, Paris 2024 is encouraging and helping them to adopt responsible management for cleaning and waste management at the venue; to offer a catering service inspired by Paris 2024’s sustainable catering strategy; to incorporate elements of active design that can be left as a legacy to the region’s inhabitants; and to offer events that can be accessed by all, particularly people with disabilities.

Throughout the entire Games period, the Clubs 2024 will provide as many people as possible the opportunity to have a unique and fully immersive experience of the Games, steeped in a French-style festival spirit. Open to all – sports fans and onlookers alike – the Clubs 2024 will allow people to:

- **Experience the highlights of the Games and support Team France**, with live coverage of the Ceremonies and the Olympic and Paralympic events.

- **Play sport**, with a programme of sports demonstrations and taster sessions, and meet local athletes.

- **Celebrate together** in a spirit reflecting Paris 2024’s commitments: to add more sport to the daily lives of the people of France, and to bring the athletes and the public closer together.

- **Enjoy spending time with family** and friends in a welcoming space where people can have fun, have a bite to eat and relax.

- **Partake in a traditional atmosphere**, which will showcase the French way of life and local expertise, through a catering service directly inspired by French gastronomic culture.

- **Immerse themselves in the party atmosphere** of the Games, thanks to a cultural programme (concerts, shows, meetings with artists, appearances by the mascots, and innovative digital events) linked to the Cultural Olympiad.

- **Soak up the festival spirit** which will bring together people from all walks of life to enjoy the party atmosphere of the Games of Paris 2024.
**CLUB FRANCE FOR A RED, WHITE AND BLUE CELEBRATION**

Opening initially for the duration of the Olympic Games, Club France will open its doors once again on 29 August in La Villette’s Great Hall for the duration of the Paralympic Games. Nestled in the heart of a popular Paris neighbourhood, in a zone set up by the French National Olympic and Sports Committee (CNOSF) and the French Paralympic and Sports Committee (CPSF), Club France will be the perfect place to come and celebrate the feats of the French Para athletes. The beating heart of Team France and its fans will welcome all those who wish to celebrate alongside Team France and to salute their medals, from 10 a.m. to 2 a.m.

The Club France programme will be based around three pillars

**ENTHUSIASM** Club France will be the special celebration area for the fans of Team France and its athletes. The thousands of spectators present will follow the feats of the French team in the presence of former Olympic and Paralympic champions.

**INITIATION** Le Club France sera le lieu où le grand public pourra découvrir de nouveaux sports, de nouvelles sensations, de nouvelles expériences, grâce à la présence des fédérations sportives et de ceux qui font le sport français. Ce sera aussi l’événement où tout l’écosystème sportif se retrouvera et préparera l’avenir.

**CELEBRATION** Club France will be the only place to host the day’s Team France medallists. Every evening, the French athletes will be celebrated with the fans, who will share a unique moment with these exceptional champions, after which the Great Hall will be transformed into a party venue.
ACCESS ALL THE INFORMATION ON THE CELEBRATION VENUES THANKS TO THE MAP OF THE GAMES

Wherever they may be in France, every Games fan can have their own unique experience of the Games by connecting to the Map of the Games to discover the events taking place near their home or where they are staying. Throughout the period of the Paralympic Games, all the events linked to Paris 2024 will be listed in a single interactive map that can be accessed from the app and the official website of the Games. In one click, it will be possible to discover, via a system of geo-tracking and filters, information on the activities on offer nearby linked to the Games (competition venues, shops, shows, etc.) and the celebration of the Games, including the Clubs 2024, Cultural Olympiad events, the route of the Olympic and Paralympic Torch Relays, sports and Para sports taster sessions proposed by sports clubs throughout France, and even coverage on offer in bars.

This Map of the Games will go online at the end of April 2024, and will remain available until the end of the Paralympic Games.

- Purchase up to 30 tickets per ticketing account, to experience the Paralympic Games with family and friends. These tickets are not name-specific when purchased – the names of the ticket-holders are to be added later. This total is applicable only to the Paralympic Games. If you have also purchased tickets for the Olympic Games, they are not counted.
OTHER KEY INFORMATION

Paris 2024 hospitality: An unprecedented model offered by On Location

On Location, Paris 2024’s Official Hospitality Supplier, will offer packages including both guaranteed tickets for Paralympic Games sports events as well as exceptional services, both at the competition venues and in the heart of the city (hotels, transport, gastronomy, tourist activities, etc.). These hospitality offers will be available online throughout the world, via the official platforms for the public (https://hospitalitytravelpackages.paris2024.org) and for companies (https://corporatehospitality.paris2024.org), as well as through On Location’s worldwide business network of authorised resellers, active in more than 90 countries.

Accessible seating for people with disabilities

Tickets for people with disabilities are on offer on the Paris 2024 official ticketing website. Two types of accessible seating are available:

• Wheelchair seating (PFR): for wheelchair-users;
• Easy access seating (PSH): these tickets are for people with disabilities and reduced mobility who are not wheelchair-users but need accessible seating with as few steps as possible, close to accessible services (for example, toilets). Other services will also be offered to guarantee the best possible Games experience: drop-off zones, personalised welcome with trained volunteers, adapted signage, audio description, etc.

When placing an order, for each type of seating selected, it will be possible to purchase an accompanying person’s ticket.

For more information on Paralympic ticket sales, see the Press Kit

VISA

In recognition of the longstanding partnership between the Olympic and Paralympic Games and VISA, the VISA card will be the official and preferred payment option.

PURCHASE VIA OFFICIAL CHANNELS ONLY

If they buy tickets or hospitality packages outside of the official distribution channels, purchasers risk not receiving them, or being refused access to the sports venues by the Organising Committee for the Olympic and Paralympic Games Paris 2024, in accordance with the provisions in force. Furthermore, any sale or resale outside of the official distribution channels is a crime, according to French law.
Paris 2024 is committed to employing people with disabilities. For instance, it has signed an agreement with Agefiph (a body responsible for managing funds earmarked for the professional integration of disabled people in the private sector) and works with the non-profit Tremplin. All our job, internship and work-study opportunities are open to applicants with disabilities. Our thorough induction process helps us identify any needs new arrivals may have.

**PULSE, THE ORGANISING COMMITTEE’S HEADQUARTERS**

Forming the nerve centre for Paris 2024 teams since January 2021, this building meets the highest environmental standards and is a truly inclusive environment.

- **Building fully accessible to people with reduced mobility** and training for canteen staff on how to assist them.

- **Inclusive recruitment for service providers:** 25% of technical maintenance staff are disabled.

- 60% of service providers involved in the building’s operations are from the Social and Solidarity Economy and two thirds of employees are participating in occupational integration schemes.
THE PARTNERS, VITAL TO THE SUCCESS OF THE GAMES

The partners, whether worldwide (members of the IOC’s TOP programme) or national (premium, official or supporters), all the enterprises involved are partners for both the Olympic and Paralympic Games Paris 2024. Their role is to support and promote para-athletes and Paralympic sports.

ALL THE PARTNERS HAVE AN ACTIVE PART TO PLAY IN ORGANISING THE PARIS 2024 GAMES AND MAKING THEM A SUCCESS.

Beyond their financial contribution, they provide products and services needed for the organisation of the games, and operational support during the event. Ten of the partners (Atos, Alibaba, Intel, Omega, Panasonic, Samsung, Visa, Orange, Cisco and DXC Technology) are already actively working with Paris 2024 on designing technological systems and operations.

THE PARTNERS ALSO SHARE THEIR KNOWLEDGE AND EXPERTISE, HELPING TO MAKE THE GAMES RESPONSIBLE AND SUSTAINABLE. The implementation of concrete solutions within Pulse, the headquarters of the Organising Committee, illustrates this contribution. For example, EDF is supplying 100% renewable energy, produced in France, while Coca-Cola has provided water and soda fountains. This is the first stage in the rollout of these solutions across all competition venues, helping achieve our goal of sustainable Games, with a minimal carbon footprint and zero single-use plastic.

FINALLY, THE PARTNERS ARE TRUE AMBASSADORS FOR THE PARIS 2024 VISION, using their ecosystems to spread the word (among their employees, customers, suppliers, etc.) and participating fully in our heritage programmes. In particular, they are helping to bring about a more inclusive society, and change the way disabilities are seen, through sport. For example, Toyota, EDF and Groupe BPCE (through Crédit Coopératif and Casden) are seizing every opportunity that Paris 2024 presents to shine a light on para-sports and para-athletes and help generate excitement around the Paralympic Games. During the Olympic and Paralympic Week, they helped organise visits to schools by the athletes, mingling with the students. On the Paralympic Livestream, as well, Paris 2024’s partners took action to raise public awareness of the world of Paralympic sport.

Finally, the partners are true ambassadors for the Paris 2024 vision, using their ecosystems to spread the word (among their employees, customers, suppliers, etc.) and participating fully in our heritage programmes. In particular, they are helping to bring about a more inclusive society, and change the way disabilities are seen, through sport. For example, Toyota, EDF and Groupe BPCE (through Crédit Coopératif and Casden) are seizing every opportunity that Paris 2024 presents to shine a light on para-sports and para-athletes and help generate excitement around the Paralympic Games. During the Olympic and Paralympic Week, they helped organise visits to schools by the athletes, mingling with the students. On the Paralympic Livestream, as well, Paris 2024’s partners took action to raise public awareness of the world of Paralympic sport.
MINDS WIDE OPEN, TO MOVE SOCIETY FORWARD
PARIS TURNED PURPLE TO MARK #WETHE15

The International Paralympic Committee (IPC) has launched #WeThe15, a 10-year campaign that aims to transform the lives of the one billion people – 15% of the global population – who have a disability. Backed by a number of international organisations including the United Nations and Global Citizen, the IPC wants to use the campaign to unite and mobilise its community to BRING ABOUT CHANGE AND EMPOWER GOVERNMENTS, COMPANIES AND THE GENERAL PUBLIC TO CREATE A MORE INCLUSIVE SOCIETY.

With the support of several of its partners, Paris 2024 and its stakeholders firmly believe in sport’s power to change public perception, which is why they wanted to join the movement to share a universal message about the need for a more inclusive society.

PALAIS DE L’ÉLYSÉE, PARIS CITY HALL, AS WELL AS THE PARIS 2024 HEADQUARTERS, turned purple – a colour associated with the disability agenda across the world – on 19 August 2021 to mark the launch. The Niagara Falls, the Colosseum in Rome, the Rainbow Bridge and Skytree in Tokyo, Piccadilly Circus, and the Dublin City Hall were part of this colourful campaign.

The campaign has been seen by 75 million people

Paris 2024 is also engaging with the campaign 2.0, which will be launched by the IPC as part of International Day of People with Disabilities, 3 December 2022. The purpose of this campaign will be to turn awareness into action, encouraging organisations and individuals in various sectors to publicly make commitments as to how they plan to further disabled rights.

Michaël Jérémiasz
Member of the Paris 2024 Athletes’ Commission

“First and foremost, sport changes how you see yourself. After undergoing an accident, getting involved in a sport lets you get to know your body again; you find out your limitations, but you also learn how to be independent and proud again. Sport builds confidence. And the more active you are, the more you can get out of your comfort zone, which has a positive effect on how other people see you.”
The Cultural Olympiad has been organised in collaboration with the Ministry of Culture and its associated institutions, and all the stakeholders involved in bringing Paris 2024 to life. It began with the last breath of the Tokyo Games. Cultural events took place as part of Paris’ 20th annual “Nuit Blanche” celebrations. Flagship institutions like the Théâtre National de la Danse and the Musée du Quai Branly have also contributed. The whole cultural ecosystem has been working overtime throughout the first half of 2022. Between now and 2024, multiple cultural events will be held in honour of para-sport and para-athletes, helping to change the way in which the public views disability.

Among the examples of projects for the Cultural Olympiad:

**ARCADIE, A SPECTACLE OF MUSIC AND PERFORMANCE PRESENTED BY THE CENTRE DES MONUMENTS NATIONAUX AND THE PARIS CHAMBER ORCHESTRA AND THE PANthéON**

Devised by director Marie-Eve Signeyrole, it will pay tribute to key figures in the Paralympic Games, and in particular, to the intimate pairing of a disabled athlete and their guide.

The music, played by the Paris Chamber Orchestra, is a dialogue between classical and experimental genres, highlighting the connections between the guide and the athlete – where the body of the musician can become one with that of the sportsperson.

It will include disabled musicians and performers, and be staged at the Panthéon – a venue richly imbued with history.
MAKING EDUCATION MORE INCLUSIVE: OLYMPIC AND PARALYMPIC WEEK

Since 2017, all schools have been invited to take part in the yearly Olympic and Paralympic Week, which is dedicated to the promotion of sports participation, citizenship and sporting values.

FOR OLYMPIC AND PARALYMPIC WEEK 2023, Paris 2024 and its stakeholders focused on the theme of inclusion: around 95% of projects carried out in schools were linked to Para sports.

### The success of Olympic and Paralympic Week

More than 7,000 SCHOOLS PARTICIPATED IN 2021

ALMOST 2 million CHILDREN REACHED SINCE 2017

ALMOST 200 ATHLETES INVOLVED IN EACH EDITION

In 2023

95%
of our projects with schools were linked to parasports and changing public attitudes towards disability.

### Parasports on the PE curriculum

In September 2020, the French Ministry of National Education, Youth and Sport added two parasports – blowgun and hiking – to the PE curriculum for students aged 12 to 15. Specific educational tools have therefore been developed for teachers to use.
As sport is a powerful lever for health and well-being, Paris 2024 is committed to the development of sports practice for people with disabilities.

**ENHANCING SPORTS OPPORTUNITIES FOR ALL CHILDREN THROUGH GÉNÉRATION 2024**

It is important to teach children and teenagers the values of sport and help them establish good habits, which is why Paris 2024 has turned its attention to schoolchildren as part of the Génération 2024 label.

**THE GÉNÉRATION 2024 LABEL** is awarded to schools that commit to increasing the amount of time devoted to sport in their pupils’ daily timetables by:

- **PROMOTING SPORTS PARTICIPATION** in collaboration with local sports clubs and hosting elite athletes.
- **PROMOTING OLYMPIC AND PARALYMPIC VALUES** and changing how people view disability.
- **PARTICIPATING IN KEY PARIS 2024** events such as Olympic Day and Olympic and Paralympic Week.

Teachers can access educational resources and tools on the Génération 2024 website: generation.paris2024.org

+SCHOOLS across France have already been awarded the Génération 2024 label.
THE LABEL HAS BEEN OPEN TO SCHOOLS FOR CHILDREN WITH DISABILITIES SINCE 2020, HELPING THEM INTEGRATE PHYSICAL ACTIVITY AND SPORT INTO THE DAILY TIMETABLE. A number of special-needs schools in the Greater Paris region have already been awarded the label. The project will subsequently be rolled out nationally.

SPECIAL-NEEDS SCHOOLS have been awarded the Génération 2024 label (Medico-social Establishments and Services, and Regional Adapted Education Establishments).

30 MINUTES OF PHYSICAL ACTIVITY EACH DAY WITH A FOCUS ON DISABLED CHILDREN.

In the run-up to the Paris 2024 Games, the Ministry of National Education and Youth and the Ministry of Sport, in February 2020, announced the launch of a new pilot programme: 30 minutes of physical activity every day in primary schools.

This scheme is being promoted in collaboration with the CPSF to get disabled children moving at school.

Since 2020, special-needs schools can submit a project for Olympic and Paralympic week. Year on year, increasing numbers of them are taking advantage of the opportunity.
INCLUSIVE SPORT CLUBS

IDENTIFYING WHAT IS STOPPING PEOPLE FROM TAKING UP A SPORT

In 2019, Paris 2024 commissioned a study, carried by the ORME (Observatoire pour la Recherche sur les Méga Évènements – Large-scale Event Research Bureau). 1800 registered members of sports clubs, and 1000 club managers, were surveyed to identify the barriers stopping disabled people from practising a sport.

The study highlighted:

DIFFICULTIES IN ACCESSING SPORTS, WHETHER OR NOT IN A SPECIALISED CLUB: 38% of registered members had encountered difficulties in playing in a club.

FREQUENT FAILURES TO TAKE ACCOUNT OF, AND MAKE PROVISIONS FOR, SPECIAL NEEDS: in total, 47.2% of sports clubs had no supervisory staff trained in how to cater for disabled players. Only 26.7% of clubs in non-specialised federations which do allow disabled players to take part have specialised equipment.

FOR 26% OF REGISTERED MEMBERS the primary need is to have supervisors trained in how to deal with various types of disability.

DEVELOPING A NETWORK OF INCLUSIVE SPORT CLUBS

Drawing upon these findings, with the shared goal of changing things for the better, the CPSF, the Ville de Paris and Paris 2024 have launched a drive to develop a network of inclusive sport clubs.

The intention is to encourage existing sports clubs to create Para sports sections, and to support that dynamic over the long term, by providing clubs with all the support they need, with training courses for managers and supervisors, run by the CPSF with the support of the FF Handisport and the FF Sport Adapté.

The scheme was tested out in Paris in 2021, and then extended to Seine-Saint-Denis.

On 26 July 2022, President Macron announced that the scheme was to reach the target of 3,000 clubs open to Para sports by 2024.

Local and regional authorities involved in

70 PROJECTS

700 CLUBS involved in 2023
INCREASING SPORT IN OUR DAILY LIVES

EXPLORING TERRE DE JEUX 2024, SHARING EXERCISE TRAILS FOR ALL

The #ExploreTerreDeJeux2024 programme encourages local authorities with the “Terre de Jeux 2024” label to identify, share and promote trails and sporting routes in their territory, to introduce more sport into residents’ daily lives, and help people discover the wealth of heritage they have to offer... through sporting activities! The Assemblée des Départements de France (ADF) and the French Paralympic and Sports Committee have helped to assess the level of accessibility of each trail, and to which specific need it caters (intellectual impairment, reduced hearing acuity, reduced visual acuity, persons with reduced mobility). The departments create and promote trails with the help of local specialist stakeholders such as sports clubs, including those that cater for people with disabilities, and the French Paralympic and Sports Committee’s regional representatives.

Discover the trails: terradejeux.paris2024.org

ACTIVE DESIGN, RETHINKING OUR PUBLIC SPACES

Active design is an innovative method to encourage free practice of sports, using very simple adaptations to the urban environment (e.g. fun street furniture, ground markings, encouraging the use of steps, urban lighting, and so forth).

To help the “Terre de Jeux 2024” municipalities shift to a more sports-friendly layout, an operational handbook active design has been produced by experts, in connection with the national programme Action Cœur de Ville. This guide makes the accessibility of facilities an essential criterion, in order to bring practice closer to those who are furthest from it, and in particular to people with disabilities. From the start of 2022, 100 Action Cœur de Ville municipalities bearing the Terre de Jeux 2024 label will be given specific guidance and support by the Cité du Design institute, based in Saint-Etienne, specialising in this field, and the Agence Nationale de la Cohésion des Territoires.

SPORTS GROUNDS AVAILABLE LOCALLY TO ENCOURAGE EVERYONE TO PRACTISE SPORT

“Terre de Jeux 2024” municipalities may receive funding to build local sports pitches and facilities, as part of a programme run by the Agence nationale du Sport. For 2022–2024, the project has a budget of some €192 million. In addition, Française des Jeux (national lottery operator), an official Paris 2024 partner with a history of supporting efforts to increase sport, is running a programme called “Gagner du Terrain” (Gaining Ground). It is examining project proposals for “Terre de Jeux 2024” municipalities to finance warm-up areas, helping ensure as many people as possible have access to local sports facilities.
At the request of the Board of Directors of Paris 2024 in March 2022, the Economic, Social and Environmental Committee (CESE) looked into the matter of sports practices by the disabled.

**IN ACCESSIBLE INFRASTRUCTURES**

With guidance from SOLIDEO, the Games will **ENHANCE DAY-TO-DAY ACCESS TO SPORTS FACILITIES** (such as the Stade Pierre de Coubertin) and **CREATE NEW GLOBALLY ACCESSIBLE INFRASTRUCTURE** (the Aquatics Centre, multiple swimming pools in Île-de-France, the Prisme, and the Porte de la Chapelle Arena), offering disabled people new opportunities to practise a sport.

**BUILT FOR THE GAMES, THE NEW AQUATIC CENTRE IN AULNAY-SOUS-BOIS WILL BE 100% ACCESSIBLE**:

- A raised and Braille map of the facilities in the foyer;
- Lockers for persons with reduced mobility, with a space underneath for a wheelchair;
- All pools accessible to the disabled, with a moving floor in the main pool which can be used as a lift;
- A purpose-built space for guide dogs, where they can rest while their owners swim.

Once the Games are over, the Olympic and Paralympic Village will be turned into a **SUSTAINABLE AND MIXED-USE LIVING SPACE – THE VERY MODEL OF UNIVERSAL ACCESSIBILITY, CATERING FOR ALL SPECIAL NEEDS** in the living quarters (accessible balconies, level-access showers, etc.) and in the shared areas (gentle slopes, suitable lighting and signage, and so forth).

From 2024, local residents in the Seine-Saint-Denis department will have access to **PRISME, A UNIVERSALLY ACCESSIBLE SPORTS COMPLEX WITH A RANGE OF INCLUSIVE FACILITIES**.
THE PARIS 2024 ENDOWMENT FUND, SUPPORTING INCLUSIVE PROJECTS

In 2020, the Paris 2024 endowment fund was established as part of the Paris 2024 legacy strategy. Promised as part of the city’s bid to host the Games, the fund is designed to promote social innovation by supporting and strengthening innovative projects that use sport as a tool to address the major challenges facing society: health and well-being, education and participation, inclusion, equality and solidarity, and sustainable development. Accessibility is a crucial criterion for a project to be eligible to the Endowment Fund.

In particular, the endowment fund will be used to support and develop actors involved in the sports movement as well as the numerous not-for-profit organisations that are involved on the ground on a daily basis.

In 2020, the Agence nationale du Sport, the Comité National Olympique et Sportif Français (CNOSF), and the Comité Paralympique et Sportif Français (CPSF), joined forces with Paris 2024 in launching an initial call for projects. In 2021, they were joined by the Ville de Paris and the Département de la Seine-Saint-Denis. Then, in 2022, the Métropole du Grand Paris (MGP), the Ville de Marseille and Française des Jeux (FDJ) also came on board.

SINCE THE CREATION OF THE ENDOWMENT FUND IN 2020:

- **32 million** has been disbursed including €12 million from the Paris 2024 endowment fund
- **1000 projects** have received financial support
- **3 million** people have benefitted
- **100%** of funded projects
- **10%** of projects devoted exclusively to the disabled

The sports movement has been involved in

Examples of successful applicants

THE DISPOSITIF SPORTS HANDI NAUTIQUES CORBIÈRE, RUN BY AVI SOURIRE (SMILE!) IN MARSEILLE: The project is based on the observation that nautical activities are inaccessible to people with a range of disabilities – in particular, those who are isolated. The project aims to make healthcare professionals into ambassadors to improve access to sport.

MADYS GYM IN MARTINIQUE: In partnership with the local education authority, the project reaches out to primary-school pupils who have been diagnosed as suffering from DYS...-type conditions (8-10% of pupils) or psycho-motor disorders. They are provided with a qualified GR trainer and a psycho-motor expert, to improve their motor skills with simple and suitable exercises.

All projects submitted that are eligible for support from the Paris 2024 Endowment Fund must pay particular attention to disabled people, and the issues of access to sports, inclusion, and changing perceptions of disabilities. The Selection Committee for the Endowment Fund, which includes the Paralympic athletes Arnaud Assoumani and Claire Supiot, is highly vigilant about this matter.
KEY INFORMATION
1. KEY MILESTONES REACHED

2018

Establishment of the Paris 2024 Organising Committee
- First two meetings of the Paris 2024 Board of Directors (March and July) and initial review of the project
- First meeting of the Athletes’ Committee (May)
- Paralympic Games orientation seminar with the IPC (May)
- Publication of the Paris 2024 Social Charter (June)
- Announcement of the first national partner: Groupe BPCE (September)

2019

Defining strategic priorities
- Approval of the legacy and sustainability strategy by the Board of Directors (January)
- Presentation of the first version of the competition venue map (February)
- Launch of the ESS 2024 and Entreprises 2024 programmes for local economic stakeholders (May)
- Launch of the Terre de Jeux 2024 label (June)
- Opening of the Vaires-sur-Marne Nautical Stadium, the first newly built Olympic facility (June)
- Unveiling of the new Paris 2024 emblem (October)
- IPC approval of the Paralympic competition venues (November)
- Start of deconstruction work at the Athletes’ Village (November)
- Announcement of two new national partners: EDF (November) and FDJ (December)
- Presentation of the main elements of the Paralympic legacy strategy

2020

Games preparation
Celebration
- Approval of the revised Games concept:
  - Revised competition venue map approved by the Board of Directors with fewer temporary competition venues
  - Greater alignment of Olympic and Paralympic venues, with more shared venues
  - Confirmation of the four new sports by the IOC Executive Board
  - Appointment of stadiums to host football events
  - Safeguarding of Games operations:
    - Approval of the accommodation plan with hotel sector representatives (45,430 rooms required during the Games)
    - Signature of protocol between the State and Paris 2024 concerning safety and security of the Games (scope and responsibilities)
    - Launch of working groups with public authorities and all stakeholders concerning the transport plan in order to provide optimal transport services
Participation
- Launch of the Paris 2024 Club (July)
- Announcement of two new national partners: Le Coq Sportif (March) and Orange (October)
- Announcement of the first group of Games Preparation Centres

Legacy and Sustainability
- Launch of first Impact 2024 call for projects (August)
  - Adoption of responsible procurement strategy by the Board of Directors (September)
  - Launch of the incubator with the Agence Française de Développement (French Development Agency – AFD)

2021

Games preparation
- Adoption of the Universal Accessibility strategy
- Installation of Organising Committee in its new headquarters
- Adoption of Paris 2024 climate strategy
- Inauguration of the Grand Palais Éphémère
- Launch of second Impact 2024 call for projects and first Impact 2024 international call for projects
- Start of building work for more than half of SOLIDEO projects, including the Athletes’ Village and the Porte de La Chapelle
- Announcement of new national partners: DXC Technology, Cisco, PwC, Sanofi, Decathlon, Sodexo, Accor and Optic 2000
2. MAIN EVENTS IN THE RUN-UP TO 2024

2022

January
Olympic and Paralympic Week

During 2022
Unveiling of ticketing arrangements

July
Competition schedule by session (Olympic and Paralympic Games)

8 October
Paralympic Day

End 2022
Launch of volunteer programme
Unveiling of mascots
Registration opens for ticketing lotteries

2023

3–8 April
Olympic and Paralympic Week

May
Individual ticket sales open (Olympic ticketing)

Summer
Seminar for Heads of Mission of National Olympic and Paralympic Committees

Autumn
Launch of the Paralympic

2024

February
Olympic and Paralympic Week

Mid-2024
Launch of the Torch Relay

28 August
Opening Ceremony of the Paralympic Games Paris 2024

8 September
Closing Ceremony of the Paris 2024 Paralympic Games

8 October
Paralympic Day

9 October
Launch of the Paralympic Games ticketing
THE PARIS 2024 GAMES WILL BE:

- 96% FROM THE PRIVATE SECTOR: 1/3 FROM THE IOC, 1/3 FROM NATIONAL PARTNERSHIPS, 1/3 FROM TICKETING INCOME
- €4.38 BILLION FUNDED BY THE PUBLIC SECTOR (FOR THE PARALYMPIC GAMES)
- 1,400 HOMES CREATED AT THE MEDIA VILLAGE AFTER THE GAMES
- 2,807 HOMES CREATED AT THE ATHLETES' VILLAGE AFTER THE GAMES
- 100% OF NATIONAL SPORTS FEDERATIONS MOBILISED IN 2024
- 1,030 GAMES PREPARATION CENTRES SELECTED
- 3,988 ENTITIES WITH THE TERRE DE JEUX 2024 LABEL
- 48 PARTNER COMPANIES ALREADY IN PLACE: 14 MULTINATIONALS AND 34 HOMEGROWN FRENCH BUSINESSES
- MORE THAN 4 MILLIONS MEMBERS OF THE PARIS 2024 CLUB
- €3.8 BILLION LONG-TERM INVESTMENTS MANAGED BY SOLIDEO
- €2.1 BILLION OF PRIVATE FUNDING (PROPERTY DEVELOPERS)
- €1.7 BILLION OF PUBLIC FUNDING (STATE, ÎLE-DE-FRANCE REGION, CITY OF PARIS, SEINE-SAINT-DENIS DéPARTEMENT COUNCIL AND OTHER LOCAL AUTHORITIES)

PARTICIPATION

- 100% OF CONTRACTIONS AWARDED BY THE ORGANISING COMMITTEE AND SOLIDEO BY 2024
- 45,000 VOLUNTEERS, OF WHICH 13,500 FOR THE PARALYMPIC GAMES
- 1,400 HOMES CREATED AT THE MEDIA VILLAGE AFTER THE GAMES
- 2,807 HOMES CREATED AT THE ATHLETES' VILLAGE AFTER THE GAMES
- 100% OF CARBON EMISSIONS OFFSET
- NEARLY 45,000 VOLUNTEERS, OF WHICH 13,500 FOR THE PARALYMPIC GAMES

CELEBRATION

- 4,400 PARALYMPIC ATHLETES
- 22 PARALYMPIC SPORTS
- 184 PARALYMPIC DELEGATIONS
- 41 OLYMPIC COMPETITION VENUES
- 49 SPECIALISED ESTABLISHMENTS AWARDED THE GÉNÉRATION 2024 LABEL
- 95% OF COMPETITION INFRASTRUCTURE EXISTING OR TEMPORARY
- -50% OF EMISSIONS COMPARED TO PREVIOUS EDITIONS OF THE GAMES
- 100% OF CARBON EMISSIONS OFFSET
- 100% FRENCH RENEWABLE ENERGY TO POWER THE GAMES
- 52% OF WOMEN
- 48% OF MEN

LEGACY AND SUSTAINABILITY

- €5 BILLION OF CONTRACTS AWARDED BY THE ORGANISING COMMITTEE AND SOLIDEO BY 2024
- 95% OF CPAW 2023 PROJECTS LINKED TO PARA SPORTS
- 95% OF COMPETITION INFRASTRUCTURE EXISTING OR TEMPORARY
- -50% OF EMISSIONS COMPARED TO PREVIOUS EDITIONS OF THE GAMES
- 100% OF CARBON EMISSIONS OFFSET
- 100% FRENCH RENEWABLE ENERGY TO POWER THE GAMES
- 150,000 PEOPLE WILL BE EMPLOYED IN THE PREPARATIONS FOR THE GAMES BETWEEN 2017 AND 2024
- 30 MILLION FRENCH PEOPLE
- 4,400 PARALYMPIC ATHLETES
- 22 PARALYMPIC SPORTS
- 184 PARALYMPIC DELEGATIONS
- 41 OLYMPIC COMPETITION VENUES
- 49 SPECIALISED ESTABLISHMENTS AWARDED THE GÉNÉRATION 2024 LABEL
